

# Low Impact Development

Designed for the small builder, developer or designer, this course is an introduction to *Low Impact Development*.

All of your questions will be answered, including “What’s in it for the builder?”, “Will it cost more?” and “Where does LID fit in with other stormwater regulations?”

You will discuss Integrated Management Practices (IMPs) & other technical issues as well as strategies for working effectively with local government through the LID process.

## Registration: Must register by 3/27/08
